In his opening editorial: The Challenge of the New (Network Review, Summer 2010), Professor Bernard Carr stated that "the polarity between science and spirituality has, of course, always been a central issue for the SMN.

Can we Resolve the Tension between Science and ...

Making connections between science and spirituality A workshop followed by a public conversation helped scientists find new ways to talk about their scientific research to audiences they do not often communicate with. Religion and spirituality can be agents for scientific learning.

Making connections between science and spirituality

Whereas science deals with explaining cold hard facts, spirituality deals in vagaries that can often help the more human and emotional sides of us a lot more. For instance, grieving families of a plane crash don't want to be told the plane crashed because the force of acceleration became less than the force of gravity—they want to be told that their loved ones are in a better place.

A Conflict Between Science and Spirituality? | ORBITER

There are things that appear different at the surface but if you delve into the depth, you will find out that they are actually one. Science and spirituality two things that appear different at the surface but these two entities actually complemen...

What is the difference between science and spirituality ...

Science and Spirituality. Both science and spirituality are the search for truth. One is the search for the truths of the physical world; the other the search for the truth of the nature of consciousness. As such there is no conflict between them. For the same reason, there is currently little meeting between the two either.
