Modern money cannot be understood separately from modern finance, nor can modern monetary theory be constructed separately from modern financial theory. That's the reason this course places dealers, in both capital markets and money markets, at the very center of the picture, as profit-seeking suppliers of market liquidity to the new system of market-based credit.

Like Treynor's security dealers, banks
supply market liquidity for a price. But
sometimes, in a financial crisis, demand
for market liquidity overwhelms supply,
and that's where the central bank comes
in, as dealer of last resort in money
markets.

Money and Banking Chapter 1: Why study money, banking, and ...

Money is any good that is widely used and accepted in transactions involving the transfer of goods and services from one person to another. Economists differentiate among three different types of money: commodity money, fiat money, and bank money. Commodity money is a good whose value serves as the value of money.
